Please enter the following amendments:

~~Claim 1. (withdrawn)~~

Claim 2. (withdrawn)

Claim 3. (withdrawn)

Claim 4. (withdrawn)

Claim 5. (withdrawn)

Claim 6. (withdrawn)

A3  
Claim 7. (currently amended) A low-contaminant dual layer apparatus adapted for use in a flat panel display device, said ~~structure~~ apparatus comprising:

A dual layer electroplated structure for containing the movement of electrons, said electroplated structure residing within an active region of said ~~field emission flat panel~~ display device, said electroplated structure having a cavity adapted to having sub-pixel forming material deposited therein and said electroplated structure containing substantially no organic material.

Claim 8. (original) The low-contaminant dual layer apparatus adapted for use in a flat panel display device as recited in Claim 7 wherein said dual layer electroplated structure is a black matrix.

Claim 9. (original) The low-contaminant dual layer apparatus adapted for use in a flat panel display device as recited in Claim 7 wherein said dual layer electroplated structure is a focus structure.

A3  
Claim 10. (withdrawn)

Claim 11. (withdrawn)

Claim 12 (withdrawn)

Claim 13. (withdrawn)
